Tools	Jdeveloper, Eclipse Che, Android Studio, Tizen Studio

PUBLICATIONS

Sentiment Analysis Of Twitter Data KS Kushwanth Ram, Sachin Araballi, Shambhavi B R, Shobha G
In proceedings of Volume 3, Issue 12 (December 2014). International journal of Advanced Research in
Computer Engineering and Technology

PROJECTS

Furniture Mart Application

- Developed a web application that allows employees of a furniture mart to manage sale transactions and expense generation for internal use. Technologies used Primefaces, JSF, Hibernate, PostgreSQL
-

Twitter Sentiment Analyzer

- Developed a web application that allows users to determine the popularity of a subject in twitter; tweets were retrieved real time based on user input and the retrieved tweets were analyzed and classified as to belonging to one of positive, negative or neutral category.
